Table of Contents for Vol. 47

1944 War-Time Metal Finishes, by Harry P. Coats	102
A Precision Quench With Inexpensive Fixture, by Theodore F. Burch (bp)	938
A Proposed Matched Set of Steels, by J. E. Erb	724
Advanced Study of Castings (cp)	107
Advances in the Stainless Steels (cp)	1142
Advice Requested on Spectrographic Standards, by Lyman J. Briggs (c)	931
Alumina From Clay (cp)	918
Antiseptic Quenching Oils, by Louis C. Barail (bp)	940
Arc Welding of Rail Steel, by C. B. Haynes, William H. Graft and Raymond G. Spencer	912
Arc-Welding Troubles and Their Cures, by Westinghouse Electric & Mfg. Co. (d)	288-B, 520-B
Arsenal of Democracy (cp)	706
Atmosphere Applications—Equipment, Methods and Process Cycles, by Floyd E. Harris	713
"Available" Beryllium Reduced by Internal Oxidation, by Frederick N. Rhines (c)	282
Battlefield Scrap—Steel and Brass (cp)	704
Bayer Process for Refining Aluminum Ore (cp)	918
Beaded Glass Screen for Viewing Microstructures, by J. D. Walker and J. J. Takacs (bp)	272
Behold the Lowly Brake Shoe (cp)	107
"Blue Printing" on Metal, by H. J. Christy (bp)	94
Bottling Caps and Bottling Machinery (cp)	1140
Brazing Keys Into Shafting, by T. L. Burkland, (bp)	510
Bright Annealing (cp)	108
Centrifugal Steel Castings, by D. McLean and L. Northcott (a)	277
Chart to Check Accuracy of Automatic Load-Strain Diagrams, by Amliel Gelb (bp)	938
Comprehensive Exposure Chart for Micrography, by Anton L. Schaeffler (bp)	96
Copper-Manganese-Nickel, by Charles Y. Clayton (c)	930
Copper Plate as a Stop-Off When Nitriding, by W. V. Sternberger and E. R. Fahy	278
Cost: Ten for a Cent (cp)	1140
Crackless Plasticity (cp)	916
Current Gripe (cp)	1142
Damage to Copper Wire by Molten Solder, by C. A. Harrison (c)	282
Design 100% and Work to Very Limits (cp)	920
Detection and Prevention of Incipient Cracking in Firebox and Boiler Steel, by Ray McBrian	524
Drilling Pyrometer Holes Through Furnace Linings, by K. J. Trigger (bp)	95

Electrolytic Polishing of Stainless Steel and Other Metals, by Otto Zmeskal	729
Enemy Materiel From the Metallurgical Point of View, by J. R. Cady, H. W. Gillett and L. H. Grenell	289
Estimates of Grain-Boundary Areas (cp)	919
Exposure Chart for Bausch & Lomb Research Metallograph, by Anton L. Schaeffler (d)	96-B
Extra High Carbon During Long Cementations, by Harry Brearley (c)	929
Failure of Spring Loops by Stress Corrosion, by Given Brewer and Herman C. Ihlen	707
Fantasy in Bronze, by J. F. Coulter (c)	934
Fatigue Tests at Resonant Speed, by R. E. Rawlins	265
Fractography (cp)	1141
Free Oxygen Prevents Sulphur Attack From Hot Furnace Gases, by J. H. G. Monypenny (c)	933
Freight—Flown or Floated (cp)	706
Future Changes Reasonably to Be Expected (Quality Steels Today and Tomorrow), by H. B. Emerick	82
Future of War Planes (cp)	705
Galaxy of Metals in Airframes (cp)	706
Gas Furnaces for Interrupted Quenching, by A. H. Koch	921
Hardness Test Separates Zinc From Cadmium Anodes, by A. A. Bradd (bp)	274
Hardness Tester With Automatic Certification Stamp, by Adolph Vleck, Jr. (bp)	95
Heat Treatment of R301 Aluminum Alloy, by T. L. Fritzen and L. F. Mondolfo	1128
High Speed—Really High Speed (cp)	920
How Rail Failures Are Being Prevented, by R. E. Cramer	521
Identification of Nickel Alloys by Spot Tests, by W. A. Mudge (bp)	510
Identification of Plastic Mounts, by H. F. Bartell (bp)	940
Identifying Specimen Mounts, by William Koppa (bp)	274
Improving the Railroad Axle, by O. J. Horger	529
Incubation of Centers for Austenitic Transformation, by Albert M. Portevin (c)	932
Iron Powder for Shell Rotating Bands (cp)	705
Is There a Ceiling? (cp)	917
Lawn Mower for Rivet Heads (cp)	706
Lead Foil as Base for Next to Last Step in Metallographic Polishing, by J. B. Cohen and J. H. Maker (bp)	508
Leaded Mn-Mo Steel, by T. Swinden (a)	406
Lime-Sinter Adjunct (cp)	918

List of Nominations for National Officers	
Magical Strain Gages (cp)	
Magnetic Measurement of the Hardenability of Carbon Toolsteels, by C. B. Post and W. H. Fenstermacher	
Making Nickel and Its Alloys (cp)	
Mathematical Demonstration of Hardenability Principle, by Roger F. Mather (c)	
Maximum Carbon in Carburized Cases, by Sidney Breitbart	
Measurement of Case Depths by Martensite Formation, by E. S. Rowland and S. R. Lyle	
Mechanical Properties and Weldability of High Strength Plate, by George F. Comstock	
Memory Aid for Welders, by E. James Sax (bp)	
Metal Limitations in the Perfection of Motive Power, by Paul L. Irwin	
Metallurgical Aspects of Alloy Steel Aircraft Engine Forgings, by A. J. Pepin and A. L. Rustay	
Metallurgical Versatility (cp)	
Metals for Railroads	
Metals in the Stars, by Sir Harold Spencer Jones (a)	
Microstructure of R301, by T. L. Fritzen and L. F. Mondolfo (d)	1136
Mounts for Fine Wire and Thin Sheet, by C. G. zur Horst (bp)	
Nesting Tight Loads of Awkward Shapes, by Clifford Alexander (bp)	
New Laboratory for Magnetic Study (cp)	
Notes About Some Steel Cartridge Cases Made in Germany	
Our Biographical Dictionary; Kent Robertson Van Horn, President, American Society for Metals, by Edward C. McDowell, Jr.	
Our Biographical Dictionary—Walter Edwin Jominy, by Edward C. McDowell, Jr.	
Pen Cleaners for All (Who Have Hair), by A. L. Hodge (bp)	
Perfect Ammunition (cp)	
Pit Corrosion of Magnesium Alloy Castings, by W. G. Harvey (c)	
Precautions in Handling Cyanide, by E. F. Houghton & Co. (d)	728
Preparation of Ultra-Pure Cartridge Brass, by J. L. Rodda and Gerald Edmunds	
Present Status of Electropolishing, by John S. Crout	
Present Steel Making Processes, by Earle C. Smith	
Prevention of Flakes in Steel Forging Billets, by Paul S. Kingsley	
Progress in the Mechanisms of Production, by Lester V. Colwell	
Properties and Characteristics of Magnesium Forgings, by J. Colin Smith	
Quality Steels—Today and Tomorrow	

(a) Abstract; (bp) Bits and Pieces; (c) Correspondence; (cp) Critical Points; (d) Data Sheet.

E. E. Engin
Fadon

Quenching Oils (bp)	937
Quenching Oils, by Blaine B. Wescott and L. W. Vollmer	935
Quenching Oils, by Petroleumensis (bp)	508
Rapid Hand Polishing of Micro Specimens, by C. H. Greenall (c)	930
Reactions Between Hot Steel and Furnace Atmospheres, by Floyd E. Harris	84
Reclamation of Magnesium Castings by Helium Arc Welding, by B. L. Averbach	1137
Relation of Die Design to Auxiliary Operations (cp)	1142
Research for Small Industry (cp)	106
Research in the U. S. Navy (cp)	105
Rockwell Hardness (Diamond Penetrator) of Cylindrical Specimens, by W. L. Fleischmann and R. S. Jenkins	275
Russians, Russians Everywhere, by B. R. Martin (c)	930
Salvage of Aluminum Scrap, by Albert M. Portevin (c)	285
Saving Recorder Paper When Furnace Is at Constant Temperature, by Kelvin Sproule (bp)	939
Science of Spot Welding, by Wendell F. Hess (a)	114
Selection of Bar Steel Used As-Rolled or Drawn, by Col. John H. Frye	497

Silitoss-Gruppo, by E. J. Boyle (c) ..	284
Small Lack of Alloys in Germany (cp) ..	705
Small Refrigerator for High Speed Tools, by Bernard Zymewski (bp) ..	937
Some Effects of the Trend Toward Rolling Stock of Lighter Weight, by Stephen H. Badgett	534
Something Wrong Here (cp)	108
Special Practices Required for Maximum Damping Capacity, by J. H. G. Monypenny (c)	280
Spectrographic Boron Steel Standards, by Lyman J. Briggs (c)	284
Speed the Testing (cp)	919
Spotting the Focal Spot, by Alfred C. Wooll (bp)	271
Stage for Hardness Surveys, by W. W. Sopher (bp)	271
Stainless Steel Sheet for Easy Welding (cp)	916
Stamp for Marking Jominy Test Bar, by Howard B. Myers (bp)	273
Start Exploring Jominy Bar on Soft End, by Gerrit DeVries (bp)	271
Steel Cartridges of 3-in. Caliber, by Fred M. Arnold	67
Stress-Corrosion Cracking of Metals ..	75
Stress-Corrosion Tests of Bridge Cable Wire, by Rolla E. Pollard (a)	496
Systematic Studies of High Temperature Alloys (cp)	919

Testing Brass Turnings for Silicon Contamination, by M. R. Berke (bp) ..	272
The A-B-C of Corrosion and Heat Resisting Steels (d)	936-B
The Effect of Tolerances on Measurements, by Sir Charles Darwin	941
The Railroad Car Journal Bearing, by John R. Jackson	532
Three Locomotives Every Day (cp) ..	920
Three-Piece Mortar Shells Replace Forgings, by John V. Blazek (bp) ..	273
Tool Life and Power Required for Finishing Cuts, by W. W. Gilbert (c)	930
Trouble Shooting Problems in Steel Machining, by J. H. Greenberg	1115
Unsolved War Problems, by Charles F. Kettering (c)	280
Wanted: Tough Steels, Tough Even When Cold (cp)	917
Welding Positioner, by V. B. Kuzmich (bp)	937
Where Are Our Metallurgists Coming From? (cp)	106
Who Knows About Temper Colors on Stainless Steels? by Metallurgicus (bp)	94
Why Did It Sprout? by John B. Zappone (bp)	509
X-Ray Microscopy (cp)	1141

List of Authors

Cohen, J. B. and J. H. Maker—Lead Foil as Base for Next to Last Step in Metallographic Polishing (bp) ..	508
Colwell, Lester V.—Progress in the Mechanisms of Production	90
Comstock, George F.—Mechanical Properties and Weldability of High Strength Plate	511
Coultier, J. F.—Fantasy in Bronze (c)	934
Cramer, R. E.—How Rail Failures Are Being Prevented	521
Critical Points	
Advanced Study of Castings	107
Advances in the Stainless Steels ..	1142
Alumina From Clay	918
Arsenal of Democracy	706
Battlefield Scrap—Steel and Brass ..	704
Bayer Process for Refining Aluminum Ore	918
Behold the Lowly Brake Shoe	107
Bottling Caps and Bottling Machinery	1140
Bright Annealing	108
Cost: Ten for a Cent	1140
Crackless Plasticity	916
Current Gripe	1142
Design 100% and Work to Very Limits	920
Estimates of Grain-Boundary Areas ..	919
Fractography	1141
Freight—Flown or Floated	706
Galaxy of Metals in Airframes	706
High Speed—Really High Speed ..	920
Iron Powder for Shell Rotating Bands	705
Is There a Ceiling?	917
Lawn Mower for Rivet Heads	706
Lime-Sinter Adjunct	918
Magical Strain Gages	919
Making Nickel and Its Alloys	108
Metallurgical Versatility	917
New Laboratory for Magnetic Study ..	105

Critical Points (continued)	
Perfect Ammunition	106
Relation of Die Design to Auxiliary Operations	1142
Research for Small Industry	106
Research in the U. S. Navy	105
Small Lack of Alloys in Germany ..	705
Something Wrong Here	108
Speed the Testing	919
Stainless Steel Sheet for Easy Welding	916
Systematic Studies of High Temperature Alloys	919
The Future of War-Planes	705
Three Locomotives Every Day	920
Wanted: Tough Steels, Tough Even When Cold	916
Where Are Our Metallurgists Coming From?	106
X-Ray Microscopy	1141
Crout, John S.—The Present Status of Electropolishing	259
Darwin, Sir Charles—The Effect of Tolerances on Measurements	941
Data Sheets	
Are-Welding Troubles and Their Cures	288-B, 520-B
Exposure Chart for Bausch & Lomb Research Metallograph, by Anton L. Schaeffer	96-B
Microstructure of R301	1136-B
Precautions in Handling Cyanide ..	728-B
The A-B-C of Corrosion and Heat Resisting Steels	936-B
DeVries, Gerrit—Start Exploring Jominy Bar on Soft End (bp)	271
Edmunds, Gerald and J. L. Rodda—Preparation of Ultra-Pure Cartridge Brass	505
Emerick, H. B.—Quality Steels Today and Tomorrow—Future Changes Reasonably to Be Expected	82
Erb, J. E.—A Proposed Matched Set of Steels	724
